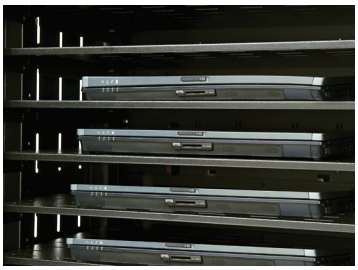
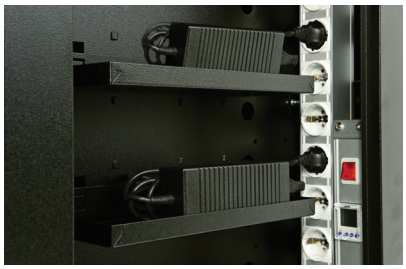
NoteCart Classic Chrome 24

NoteCart Classic Chrome with room for 24 chromebooks

NoteCart Classic Chrome stores, charges and transports 24 chromebooks

- The cart is plain in design and comes with fixed shelves
- Intelligent power panel protects the notebooks and the school's electric wiring
- NoteCart has a permanently fitted fan to ensure active cooling system and prevent overheating of stored devices
- Power supply units are stored separately, in a compartment accessed from the rear of the cart
- Timer (optional) protects chromebook batteries against rapid wear and minimises electric power consumption
- NoteSecure (optional) ensures the cart against theft
- High quality ball bearing wheels and sturdy handles secure high mobility
- Developed in conjunction with schools for more than 12 years
- Danish Design - made in Europe; CE certified





NoteCart is designed, manufactured and tested in an ISO9001: 2008 BSI registered facility, so that the product complies with all relevant provisions of EN 60950-1 - Safety of information technology equipment; and BS 6396 - Electrical systems in office furniture and furniture and equipment in educational environments.
